GEODERMA

Contents Volume 96, 2000

75 years The International Society of Soil Science
H. van Baren, A.E. Hartemink and P.B. Tinker 1

Research Papers

Effect of topography on the composition of soil organic substances in a perhumid sub-tropical montane forest ecosystem in Taiwan
J.-S. Chen and C.-Y. Chiu 19

Chemical fractionation of phosphorus, sulphur, and molybdenum in Brazilian savannah Oxisols under different land use
J. Lilienfein, W. Wilcke, M.A. Ayarza, L. Vilela, S. do Carmo Lima and W. Zech 31

The terminology and the concepts of gypsum-rich soils
J. Herrero and J. Porta 47

Effect of soil parameters on the corrosion of archaeological metal finds
W. Gerwin and R. Baumhauer 63

Magnetic separation and evaluation of magnetization of Brazilian soils from different parent materials
M.P.F. Fontes, T.S. de Oliveira, L.M. da Costa and A.A.G. Campos 81

The use of spin counting for determining quantitation in solid state ^{13}C NMR spectra of natural organic matter 1. Model systems and the effects of paramagnetic impurities
R.J. Smernik and J.M. Oades 101

Pedospheric attributes in distribution of total and DTPA-extractable Zn, Cu, Mn and Fe in Indo-Gangetic plains
B.D. Sharma, S.S. Mukhopadhyay, P.S. Sidhu and J.C. Katyal 131

Book Reviews 153

Research Papers

The use of spin counting for determining quantitation in solid state ^{13}C NMR spectra of natural organic matter 2. HF-treated soil fractions
R.J. Smernik and J.M. Oades 159

Release rates of Al from inorganic and organic compounds in a sandy podzol, during laboratory experiments
C. van der Salm, J.W. Westerveld and J.M. Verstraten 173

A comparison of soil maps, kriging and a combined method for spatially predicting bulk density and field capacity of ferralsols in the Havana–Matanzas Plain
A. Utset, T. López and M. Díaz 199

Impact of forest tree species on feldspar weathering rates
L. Augusto, M.-P. Turpault and J. Ranger 215

Recovering soil productivity attributes from experimental data: a statistical method and an application to soil productivity dynamics
K. Kim, B.L. Barham and I. Coxhead 239

Book Review 261

Discussion

An empirical stochastic model for the geometry of two-dimensional crack growth in soil (with Discussion)
G.W. Horgan and I.M. Young 263

Discussion of the paper by G.W. Horgan and I.M. Young
C.J. Moran and J.M. Kirby 277

Research Papers

Potassium release from mineral structures by H^+ ion resin
Rahmatullah and K. Mengel 291

Direct land application of cement kiln dust- and lime-sanitized biosolids: extractability of trace metals and organic matter quality
H. Dinel, T. Paré, M. Schnitzer and N. Pelzer 307

Functional substrate biodiversity of cultivated and uncultivated A horizons of vertisols in NW New South Wales
F. Yan, A.B. McBratney and L. Copeland 321

New developments in soil classification World Reference Base for Soil Resources
F.O. Nachtergaele, O. Spaargaren, J.A. Deckers and B. Ahrens 345

Book Reviews 359

Erratum 365

Contents Volume 96, 2000 367
